

## **Newcastle Cathedral – A Beacon of Light For the Future**

*Over the past two years, with a significant award from the National Lottery Heritage Fund and the generosity of many Trusts and individuals, Newcastle Cathedral has been transformed. The nave has a new floor with underfloor heating, monuments and ledger stones have been interpreted, the churchyards re-landscaped and new visitor facilities placed in the basement. These alterations will extend the range of activities at this important Newcastle City Centre landmark building.*

*We will give you the opportunity of seeing these various changes – making this, we believe, an interesting and informative CPD event.*
